

Waste Management Department Current Events:

Currently, the Waste Management Department is working with the City Council of Alexander City to reduce the amount of waste being dumped into the North Central Landfill. The city council voted to not allow Tallapoosa County residents and businesses based outside the Alexander City corporate limits to dump waste into the city's landfill.

Beginning March 8, 2011, waste will not be accepted from anyone living outside the Alexander City corporate limits, nor will it be accepted from any business based outside the corporate limits. This change in operation is the result of the city's inability to gain local approval from the Tallapoosa County Commission for a new city landfill, and is being made in an effort to extend the life of the North Central Landfill.

Proof of residency must be in the form of a reasonably current utility bill *and* driver's license.
